Memory Game

Ask an adult to help you cut out each memory card from the next page. Next, lay each memory card face down and mix them up.

TO PLAY:

Lay all the cards out in rows and then turn over any two cards.

If the two cards match, keep them face up. If they don't match, turn them back over. Try to remember where each card is and match them all!

You can also play with two players and take turns turning over two cards at a time. The person who finds the most matches wins!
